WORK PERFORMED

1/5/2024 HVAC inspection for 228 S Cave Creek Drive, Bloomington approved up to \$250 (please make sure to check the AC in addition to the furnace). Nice house, looks as though the furnace is in the walk-out basement. Electric is on, and CenterPoint (fka Vectren) was scheduled to turn on/transfer the gas today.

Completed inspection of the furnace and AC. Replaced matted 16x25x1 filter and 2-AA batteries to the tstat. CO test- 0ppm in supply air, 38ppm in flue. Sent in a green sheet for a register to be installed on the duct. Found no other issues at this time. No charge for the filter and batteries per Darrin.
